WASHINGTON, AUGUST 7.
The Treasurer of the United States to-day received the sum of \$27,000, almost the whole amount of what the Government has been defrauded by the forgeries charged upon William Ringgold Cooper. Large numbers of Southern gentlemen, delegates to the Philadelphia Convention, are daily arriving here. They represent a good state of feeling in the South, and a general anxiety that the Philadelphia Convention shall be the means of bringing the two sections to a better understanding of each other.

There has been received at the Treasury Department a plate used in printing counterfeit fifty-cent notes, which was captured in New York City by the operations of the Secret Service Division. The officers secured a quantity of the counterfeit notes some weeks ago, and having worked up the case, succeeded in securing the plate and several of the parties engaged in the manufacture of the notes.
It is understood that as soon as Postmaster General Randall returns a large number of Postmasters in the States will be removed, and friends of the Administration appointed in their places. Several Radical clerks have been removed from the Internal Revenue Bureau.

The Columbian Hotel Burning.
SARATOGA, Aug. 7.—Midnight.—A fire broke out at 11 o'clock to-night in a wooden building next to the Columbian Hotel, occupied by Messrs. Kriger, furniture dealer, Hiram Palmer, provision dealer, and C. H. Brown, baker. The building was destroyed. The fire then caught in the Columbian Hotel, which is now burning. The New Orleans Riots.
A lengthy dispatch was received from New Orleans at a late hour last evening, covering correspondence from Messrs. Vorhees, Herron and Monroe to President Johnson, relative to the late riots in that city. The correspondence gives about the same history of the affair that has been extensively published in the New Orleans papers, and republished in the Sun and other journals here. The Convention, the attempt to exercise the authority of which, led to the outbreak, is declared to have been

illegal in all its steps, and the whole scheme is denounced as a plot to seize upon the government of the State, and to force negro suffrage upon an unwilling people.

The London Reformers and the Government.—The People are Allowed to Meet in Hyde Park.
The London Star of the 16th reports an interview between the Home Secretary and a delegation from the Reform League, in reference to the Hyde Park riots, an account of which appeared in the Sun yesterday. Mr. Beales, the President of the League, frankly informed the Secretary that further disturbances were to be apprehended unless the Government yielded, and requested Mr. Walpole to facilitate legal proceedings for the purpose of having the right of the people to meet in the public parks "quickly and judicially decided." He concluded thus: "I am quite sure the Council of the League will be most happy to render every assistance in their power; but I must say, as far as I can form an impartial judgment myself on the matter, that the preliminary step to bring about a better state of feeling on the part of the people is the entire withdrawal of the police from the park. I think that unless some step of that kind is taken, we may have scenes which we shall have much more cause to deplore than those which have already taken place." Mr. Walpole replied by insisting that the parks were not the place for non-violent discussion, but added that the Government would interpose no obstacles to a speedy legal decision of the question. He also promised that if (Mr. Beales) on the part of the people would give the assurance that no breach of the peace or disturbance should occur, the people would be allowed to meet in the park; which was given.

Early the same evening an informal meeting of the members of the League was held in Hyde Park. The police did not interfere; several workmen made speeches; the crowd was large, but no disturbance occurred. At a later hour a messenger arrived, and said that Mr. Beales, the President of the League, and Colonel Dickson, had arrived in the center of the Park, and would tell them that they had waited upon the representative of the Government, and that he had granted permission for holding the meeting on Monday next, and that no display of either military or police should be made on the occasion. (Loud cries of "The white feather.") The whole of the assembly then adjourned to Mr. Beales's meeting. The Star in reporting this meeting says: "Mr. Beales said he was there to give them the glad tidings that rejoiced him beyond measure—namely, that trust and confidence had been placed in the people. There was to be no more interference by the police or military with the liberty of the people; they were to be trusted themselves to preserve the property, leaving to them the assertion of their own rights. He put it to them, while looking for their own rights, not to interfere with the rights of others. The government had agreed to trust them, and that they relied upon them not to commit any disorderly act, nor to insist upon meeting in the parks, with this one exception. It was arranged that a meeting was to be held on Monday evening at six o'clock. (Great cheering.) At the conclusion of the speech the crowd departed in an orderly and decorous manner."

The Cholera Abroad.
UNITED STATES CONSULATE,
ANTWERP, Belgium, July 15th, 1866.
TO HON. WILLIAM H. SEWARD:

SIR—Since my last report upon the subject of the cholera, it has been gradually on the increase. The daily death list, as shown by the city papers for the last ten days, has ranged from 60 to 95. The disease first made its appearance in the port on board an emigrant ship, which left during my absence at Tangier. As soon as it became known to the city

authorities that the disease was cholera, the vessel was ordered out of port, but not until too late to prevent the infection from reaching the shore. The prevailing type of the disease here is malignant, in many instances carrying off the patients in two or three hours. Its favorite places, thus far, have been the docks and wharves of the city. A strict surveillance should be kept over all vessels from this port. (Signed) JOHN WILSON, U. S. Consul.

POLITICAL.
Maine.
PORTLAND, ME., Aug. 7.—The Maine Democratic State Convention met in Deering Hall at half past 10 o'clock this morning. Seven hundred and fourteen delegates were present. Abraham Sanborn, of Bangor, was made Chairman, and Wm. S. Noyes, of Saco, Secretary, and a Vice President was elected from each County in the State. After perfecting the organization, the Convention adjourned until two o'clock.

PORTLAND, ME., AUGUST 7.—The Convention was called to order at half-past two o'clock. Hon. Blon Bradbury addressed the meeting. He said one of the greatest political contests which ever occurred in the country was commencing. The issue is narrow, it is to the submission of representatives from ten States. When that shall have been done and the State admitted to their constitutional rights the question will be a harmonious set, and every reason of accession will have vanished. That issue has been brought up between the President and Congress. The President has simply endeavored to deal justly with all the States. His action was based upon the policy of Abraham Lincoln. As Lincoln's death was told that it was a dispensation of Divine Providence in favor of the Republic, so Lincoln was too good and gentle in his death. But gentle as Lincoln was, he was not more gentle, more forgiving to his enemies in the South, and firm as adamant in seeing that their rights should be restored. He is not the President of the Democratic party, but the Democratic party supports him because he is pure and just.

The first resolution asserts that the majority of the 39th Congress merits and receives our unqualified condemnation and rebuke. The second resolves that we will "aid all the departments of the Government to its assertion that all the rights of the States should be preserved. The fifth approves the call of the Philadelphia Convention and recommends sending delegates thereto. The report was unanimously accepted.

E. F. Pillsbury, of Farmington, was then unanimously nominated for Governor. Mr. Pillsbury thanked the Convention for their choice and cordially endorsed the resolutions. (Immense applause.) A ballot was taken for delegates at large to the Philadelphia Convention, and L. D. M. Sweet, Richard H. Rice, A. W. Johnson, and Rev. Leonard Woods, D.D., of Farmington, were elected.

A resolution was passed that Mr. Pillsbury be requested to invite the Republican candidates, General Chamberlain, to a discussion of the questions of the day before the people. Adjourned.

New York.
OSWEGO, Aug. 7.—A large Convention, in which all the counties of the 26th Congressional District were fully represented, was held here to-day. Hon. William T. Jackson, of Schuyler, presiding, and one of the following resolutions was adopted: The Philadelphia Convention—Gen. Robert L. Fleming, of Tioga; J. C. Hitchcock, of Broome; Frederick Davis, Jr., of Schuyler; Edgar K. Apper, of Tompkins; Albert H. L. Leavelle, of First George Hecker, of Broome; Abraham McKee, of Schuyler; Anson Spencer, of Tompkins.

BUFFALO, AUGUST 7.—A large meeting was held at St. James' Hall, this evening, to elect delegates to the Saratoga Convention. George R. Babcock presided, assisted by thirty vice-presidents. Mr. Babcock, after a brief address, was followed by Senator Douglass, who spoke nearly two hours in review and support of the policy of President Johnson, claiming that it was identical with that of Mr. Lincoln. His remarks were frequently applauded.

KINGSTON, N. Y., Aug. 7.—Marins Schoonmaker and Thaddeus Hoyt, were to-day appointed to represent Ulster county, and F. Cooke and D. K. Alm to represent Greene county, in the Philadelphia Convention.

Delegates appointed to attend the Saratoga Convention from the First District are William Masten and Joseph S. Smith; Second District, C. S. Connelly and A. H. Hasbrouck.

Ohio.
COLUMBUS, O., Aug. 7.—The Johnson State Convention to-day appointed the following delegates-at-large to the Philadelphia Convention—Thos. Keling, Lewis D. Campbell, James B. Steedman, William S. Groves, and John H. Smith. Mr. Keling, Mr. Campbell, Mr. Steedman, Mr. Groves, and Mr. Smith, were elected.

Resolutions were adopted declaring the great question of the day to be the restoration of the States lately in rebellion to their constitutional rights. A letter from Thomas Keling was read. It denounces the course of the Radicals in Congress, and doubts the constitutionality of laws passed over the President's veto, with seven states unrepresented.

Indiana.
INDIANAPOLIS, IND., Aug. 7.—Speaker Colfax addressed a very large Republican meeting in Circle Park to-night.

Wisconsin.
MILWAUKEE, Aug. 7.—The Democrats of the Fourth Congressional District renominated Hon. Charles F. Eldridge for Congress to-day.

Delegates from fifteen Counties in the State were present, and these delegates were the leading colored men in the State. Their object is to discuss questions of political interest to the colored people in connection with agriculture, mining, manufactures and education. The Convention will probably be in session for two or three days.

Kentucky.
CINCINNATI, Aug. 7.—The returns from Kentucky indicate a Democratic majority of from 20,000 to 30,000.

Louisville, Ky., Aug. 7.—The Journalist's account of the city election yesterday, gives Hobson 2,957 votes, and Duval 4,311 for Clerk of the Court of Appeals. Count received 4,417, and Johnston 3,025 for Clerk of the County Court. Craig received 4,450, and Harbison 3,545 for Judge of the County Court. Marshall received 2,854, and Harden 4,421 for Appellate Judge.

There are at present two vacancies in the Kentucky Congressional delegations, caused by the resignations of Gen. Henderson from the Louisville District, and Green Clay Smith from the Covington District. The latter has been appointed Governor of Montana Territory. Although he has not resigned at the time of the adjournment of Congress, it is not likely that he will continue to hold both offices.

Maryland.
BALTIMORE, Aug. 7.—Thomas Swan, J., son of Governor T. Swan, died to-day. The new registration of voters has commenced in all the wards and attracts considerable interest from the efforts being made by many heretofore excluded on the ground of disability, to obtain registration. The status of political parties in this city at a state of course depend very much on the result of the registration.

It is stated that national officials recently de-capitalized after nomination by the President and confirmation by the Senate, are disposed to contest the matter by refusing to give up their positions to the newly appointed officials, on the ground that no such power is vested in the Executive. The plague of locusts, says an English paper, is causing sad devastation in Syria. In a letter dated Byrron, June 22, it is stated that the accounts from Hissaya are most distressing. Or a family of six persons, in Philadelphia, all of whom recently returned from a pleasure trip in a sail boat on the Delaware river, violently ill, five have died. It seems they took on board a bundle of clothing which they found floating on the river, probably thrown overboard from some vessel on which there was a contagious disease. It is hoped that the only survivor will recover.

At an adjourned meeting of the American Dental Association, at Boston, on Monday, General Butler was introduced, and delivered a speech eulogistic of Dentistry and Radicalism in general. At the conclusion of his remarks the following resolution was introduced: "Resolved, That this Association is happy to see and hear Major General Butler, and it also wishes he had command at New Orleans one week ago." The adoption of this resolution led to a motion to reconsider, which produced a spirited discussion, some of the Southern delegates vigorously objecting that it introduced politics and subjects foreign to the objects of the Association. Some of the Northern delegates explained that the resolution was merely a recognition of ability and loyalty, and the subject was finally dropped.

LOCAL NEWS.
NEW YORK AND THE VICINITY.

QUEEN EMMA.—As noticed in the Sun of yesterday, a veritable Queen is said to be en route from Europe to this port, and the vessel on which she is expected is now about due. This august personage is Emma, Queen of the Sandwich Islands, who is returning to her home, from a visit to England.

Emma, though of a dark complexion, is said to be a good-looking young woman, well educated, refined in her manners, and without that banking after "roast missionary" which formerly characterized her people. It is announced that she will be received by the United States authorities with national honors, and no doubt the hubbub that was raised about the Prince of Wales and Japanese Tommy will be nothing compared with the reception of the live Queen, who is young and pretty.

The scions of Shoddy and Petroleum will be in their glory. The votaries of fashion will have a chance to show their excess of jewelry and deficiency of brains before "Her Majesty," if a chance shall be given them, and Emma will be lucky if she survive it all. As before remarked, Emma has no cannibalistic propensities, and it will therefore be safe even for our fat and tender Aldermen to appear in her presence. So far as cannibalism is concerned, it is more likely that she will be the victim than the devourer, for, according to all accounts, she is a very appetible Sandwich.

CHOLERA REPORTS.—The reports yesterday are gratifying, there being only nine cases and one death in the city—exclusive of the hospitals, in which only five deaths were reported, viz: four in the Mad House and one in the Battery Hospital.
